

DS9093S iButton Wall Mount

www.maxim-ic.com

FEATURES

- Low-cost fixture that permanently secures an iButton[®] to an object.
- Allows an <u>i</u>Button to be easily and permanently attached to an object using screws or rivets (F5 MicroCan[®]).
- Made from 13% glass filled Nylon 6/6

DESCRIPTION

The DS9093S allows the user to permanently attach an <u>i</u>Button to an object with two screws, or rivets. The plastic plate is designed with an inset that accommodates the flange of the F5 package and allows for flush mounting. A protective wall is provided along the sides of the plate to reduce incidental damage to the <u>i</u>Button.
